## **DETAILED ACTION**

## Response to Amendment

The Amendment, filed on 3/31/2006, has been entered and acknowledged by the Examiner.

Cancellation of claims 38, 49, 50, and 53 has been entered.

## Allowable Subject Matter

Claim 39, 41-44, 51 and 52 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 39, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 39, and specifically comprising the limitation of a display device where the optical path length is increased until exactly 4 more resonances for green light are included beyond the lowest positive minimum value of the optical path length, during resonance of the that green light.

Regarding claim 41, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 41, and specifically comprising the limitation of a display device where reflectance of every wavelength of external light is less than 30%

Regarding claims 42-44, claims 42-44 are allowable for the reasons given in claim 41 because of their dependency status from claim 41.

Regarding claim 51, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 51, and specifically comprising the limitation of a display device where the optical path length is increased until exactly 4 more resonances for

green light are included beyond the lowest positive minimum value of the optical path length, during resonance of the that green light.

Regarding claim 52, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 52, and specifically comprising the limitation of a display device where the optical path length is increased until at least 10 more resonances for green light are included beyond the lowest positive minimum value of the optical path length, during resonance of the that green light and where the cavity is formed between the interface between the semi-reflective layer and second electrode and the upper edge of the passivation film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matt P Hodges whose telephone number is (571) 272-2454. The examiner can normally be reached on 7:30 AM to 4:00 PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on (571) 272-2457. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
